STRIKE SITUATION.

The Man Feeling the Pangs of Hunger and Getting Desperate.

AT WORK IN WEST VIRGINIA

Marching Miners Beach Belleville, 111, bur Do Not Attempt to Hold a Meeting-Strike Ended in Alabama-Appeal for Aid.

tention of the miners of the Pittaburgh district is now riveted on the Allison, Boone & Enterprise mines, near Can-onsburg. The Boone and Allison mines, which were closed Monday by the owners to present trouble between their men and the marching miners. resumed yesterday with nearly a full No attempt was made to start up at the Enterprise mine. The strikers fear that if these mines continue in operation it will induce the Enterprise men to go back to work. The programme of the strikers is to make another march on the Allison mine.

The leaders said yesterday afternoon that more than 3,600 diggers would be massed in the Panhaudie district and ano ner march made on the mines. Lt at night the miners of the Panaundle district were gathering above Bridgeville, and it will not be surprising if 1,000 miners are found on the Washington plke in the morning. The men in the Miller's and Tom's Run districts are all idle and have plenty of time to make another march. They were supplying themselves with several days rations, and if the proposed march is made they will stay about the of-fending mines for several days. Just at this stage of the atrike sensational developments are expected. The men are beginning to feel the pungs of hunger and want and are in a condition bordering on desperation.
It was learned yesterday that organ-

izers have been secretly at work among the miners of the New York & Cleveland Gas Coal Co. for several days. One of them was served with an injunction to remain off the company's property and leave the men alone. He said that he had, been among the miners at Plum creek and expressed great hopes of being able to have them join the general suspension. As near as can be learned, a concerted effort will be made in the near future to bring out the men at Turtle creek, Sandy creek and Plum creek. Just what procedure will be resorted to has not yet been decided on. The officials feel that in order to make the strike a success in this district these miners must be brought out.

AT WORK IN WEST VIRGINIA. WHERLING, W. Va., July 21. - Changes that have an important bearing upon the coal strike situation came vester-The state, taken as a whole, is against the strike, for financial reasons, and all who have struck have been brought out under the pressure of the organizers and agitators from elsewhere. Generally they have been shamed late striking and their minds change when the agitators move on to other sections. In the Fairmont region. Debs admits he is sorely discouraged, 76 of the Monongab men brought out Monday having returned yesterday clare that If the Watson men, about 1,000 in number, can be kept at work, the other mines will be working Thursday as usual.

Sr. Lovis, July 21.—There has been no disorder of any kind at Belleville. The marching strikers from O'Fallon and Connellsville, 300 in number, arrived at Belleville yesterday evening. They had two aix horse wagons and half a dozen farm teams decorated with flags, bunners and flowers. It had been intended to hold meetings in the evening, but the men were too tired from the march, and

STRIKE ENDED IN ALABAMA. BIRMISGRAM, Ale., July St.-The operators in this district was ended sterday by compromise, the operators agreeing to pay the miners 3716 Tooley about 4,000 men who have been on a strike since July 1 will resume

FIREWEN APPEALED TO. PROBLA, Ill., July 21 - Grand Master Sargent, of the Brotherhood of Loco motive Firemen, has issued a circula to all subordinate lodges, appealing to them to contribute liberally to the as aistance of the striking coal miners.
